Miguel and his developers created a nonprofit website for me and it was a hit. Love their work and would recommend to anybody looking to create a new website.

Awesome web design and development team. They helped us with our restaurant website and even set up our google business profile to help us with our SEO campaign here in Fort Lauderdale.

Miguel was absolutely very professional to work with. He took my ideas from scratch and developed my dream website for my fitness brand. He was always willing to make changes and updates whenever I asked. It was an absolute pleasure to work with him. If you are looking for a talented yet patient developer he is your Man. Thank you again!

Miguel is a great guy to work with. He's friendly, has good suggestions, and works hard to make sure his clients are satisfied. He has the technical chops and is someone you can count on to build you a high quality website at a fair price. He also has a great demeanor and is very easy to work with!

Miguel and his team of web designers are true professionals. They brought my ideas to life and had me feeling like a web developer myself as they walked me through every step of the design process. I wish the Unique Web Designer team nothing but the best and look forward to working with them on future web design projects.
